

# BOARD OF EDUCATION GOALS 2009-2010

## Goal I

To continue to improve school and community communications focusing on passing the budget and strengthening Board and municipal ties

### Action Steps:

- Board of Education members will develop and disseminate a quarterly Board of Education Newsletter. The newsletter will communicate components of the school budget and how the budget supports the positive aspects of the district's accomplishments, programs, improved facilities, and student achievement
- Board of Education members will improve communication and community relations by developing "school budget support groups." These groups will assist the Board by sharing budget information with the larger community

## Goal II

To educate ourselves and our community on the statewide initiative on regionalization/consolidation including exploring alternatives with our other sending districts in order to develop a position and advocate for that position

### Action Steps:

- Board of Education members will attend seminars regarding regionalization/consolidation of Somerset County school districts in order to learn about statewide and school district initiatives
- Board of Education members will schedule meetings with the sending districts or neighboring districts in order to develop a position for Green Brook Township School District regarding regionalization/consolidation
- Board of Education members will develop and implement a plan to communicate the position of the district with the New Jersey State Department of Education

## Goal III

To continue to focus on and implement "green Initiatives" district wide

### Action steps:

- Board of Education members will research "green initiatives"/grants and share information with district administrators. Board of Education members will plan for the implementation of "green initiatives"
- Board of Education members will review the district's Long Range Facilities Plan in order to determine support/funding for the implementation of "green initiatives"

#### Goal IV

To explore the implementation of a strategic plan for the district

##### Action steps:

- Board of Education members will investigate the need to develop and implement a strategic plan for the district
- Board of Education members will develop a strategic plan (if determined by the Board) with the support of a School Boards Representative

#### Goal V

Student Achievement Goal - to be based on testing data and input from educational leaders as soon as data is available

##### Action steps:

- Board of Education members will review and approve the annual student achievement district goals. These goals will be based on testing data and input from school administrators
